

American Alliance of Performing Arts Educators

February 15th, 2011

Dear Sabrina and Dancers,

What a pleasant surprise! I knew to expect a good group with a good director but exciting choreography is always a plus. You and your group know how to command a space

“Evolution” was probably was one of the most *avant garde* “events” of the afternoon, which I appreciated.

“Steam Heat” is the kind of piece that would attract attention in London, even from a distance! Great!

Back stage you got compliments for being easy to work with and professional in your attitude.

Put this in the scrapbook. Linda Apperson, our Stage Manager said, “*They were full of energy and a delight to watch (really :~). Very professional troupe backstage, a pleasure to work with. Hope we'll work together yet again another time.*” [Well yes Linda ~ in London] That is a rare and a high compliment from our stage manager.

We had good groups from all across the eastern USA. You shined with the best of them.

Thank you for helping make this event professionally special.

On to London!
